

Manu Sanroman

Youth Football Coach · Player Development · Academy Methodology

Monterrey, Mexico · Open to relocation · Spanish and Mexican citizen (EU passport)

manumanusanroman@gmail.com · msanroman.com · linkedin.com/in/manusanromanfdz

PROFILE

Youth football coach focused on technical player development. Third season coaching the U-10 group at the Rayados de Monterrey academy, where I created the Skills Challenge, an at-home technical program with its own web app. Previously helped shape the coaching methodology and started the 1-on-1 training program at Houston Dutch Lions FC. I develop players by level, not age, around four pillars: personal, individual, group, and football culture.

EXPERIENCE

U-10 Coach · Rayados de Monterrey Academy (Rayados en la Mira)

Aug 2023 – Present

Monterrey, Mexico

- Coach the U-10 group for a third straight season, with sessions built on ball mastery, decision-making, and carrying skills into games.
- Created and run the Skills Challenge: weekly at-home challenges based on skills from the game's legends, with video submissions and criteria-based feedback. Current round: about 15 players, started September 2026.
- Designed and built the program's web app: parent sign-up, coaching staff access, video uploads, and feedback.
- Use video and training observation to give individual feedback and connect home work to match performance.

Coach & Operations Intern · Houston Dutch Lions FC

Aug 2021 – Dec 2022

Houston / The Woodlands, TX

- Planned and ran sessions for multiple teams, ages 4 to 18, adapted to each player's stage and level.
- Helped shape the club's coaching methodology around small-sided games and progressing the ball.
- Started the club's 1-on-1 training program.
- Supported club operations: family communication, uniforms, branding, sponsors, leagues, and community events.
- Served as the main contact for Spanish-speaking families.

Private Skills Coach (part-time)

2011 – 2021

United States

- 1-on-1 technical sessions for players of different ages and levels, using video feedback.

PROJECTS

Rayados Scouting Lab · Master's final project

Scouting and recruitment tool (Python, Streamlit) that diagnoses squad needs, scores about 3,100 players from 8 leagues, and checks Liga MX squad rules. github.com/manumanusanroman-rgb/rayados-scouting-lab
